**9** Partnership Approach

**10** Transparent Communication

# KEY DIFFERENTIATORS

# SUSTAINABILITY AND SOCIAL RESPONSIBILITY

**Sustainability refers to the ability to meet present needs without compromising the ability of future generations to meet their own needs. In the context of waste management, sustainability involves adopting practices that minimize environmental impact, conserve resources, and promote long-term ecological balance.**

**Social responsibility involve considering the impact of business operations on society and actively contributing to the welfare of communities, employees, and other stakeholders.**
